Create users

We're going to explain how to create users in moodle.

Create users

The screenshot displays the Moodle SMR Administration interface. The browser's address bar shows the URL 'localhost/moodle/admin/search.php#linkusers'. The interface includes a top navigation bar with 'SMR' and 'English (en)'. A left sidebar contains links to 'Dashboard', 'Site home', 'Calendar', 'Private files', 'Site administration', and 'Add a block'. The main content area features a search bar and a navigation menu with 'Site administration', 'Users', 'Courses', 'Grades', 'Plugins', and 'Appearance'. The 'Users' section is active, showing a list of links under the heading 'Accounts': 'Browse list of users', 'Bulk user actions', 'Add a new user', 'User management', 'User default preferences', 'User profile fields', 'Cohorts', 'Upload users', and 'Upload user pictures'. At the bottom, the 'Permissions' section lists 'User policies' and 'Site administrators'.

Add users to a group

A yellow pencil and a pink eraser are positioned in the top right corner of the slide, appearing to be on the same piece of paper as the title.

- We're going to explain how to add users to a group.

☐ SCORM package

☐ Survey

☐ Wiki

☐ Workshop

The quiz activity enables a teacher to create quizzes comprising questions of various types, including multiple choice, matching, short-answer and numerical.

The teacher can allow the quiz to be attempted multiple times, with the questions shuffled or randomly selected from the question bank. A time limit may be set.

Each attempt is marked automatically, with the exception of essay questions, and the grade is recorded in the gradebook.

The teacher can choose when and if hints, feedback and correct answers are shown to students.

Quizzes may be used

- As course exams
- As mini tests for reading assignments or at the end of a topic
